

NordSIM-Vegacenter research proposal

To be submitted together with a short project description (maximum 2 pages including figures) and mandatory user statistics form to Nordsim-Vegacenter@nrm.se.

Project descriptions should be written in English.

Project title			
Project leader ¹			
Affiliation			
Status ¹			
E-mail		Telephone	

Collaborator name(s) & institution(s) ²	
National	
International	

Project summary (max. 1500 characters)
If this project is funded, please provide details of the type of grant/funding agency, etc.
Objective(s) of the project and working hypothesis/model to be tested

Required instrumentation	Please enter estimated days of access needed			Options (check)
SIMS	Cs source		O ₂ source	Ion imaging
SC-ICPMS	Solution		LA	Mapping
MC-ICPMS	Solution		LA	GC
List for each type of analysis the number of samples and required number of analyses per sample. Also state whether sample preparation is required ³				
Describe if other data relevant to the project have been/will be obtained (e.g., electron microprobe data, CL images, etc.).				
Justify project urgency (if any)				
Expected output resulting from your visit (number of abstracts, publications, etc.). If relevant, explain how the analyses contribute to doctoral or post-doctoral research.				
Preferred schedule, earliest start date and/or inconvenient dates.				
Has this project been discussed with NordSIM-Vegacenter staff? ³				

Status of previously accepted NordSIM-Vegacenter projects (if any) by project leader/collaborators ⁵						
Project ref. number	Year ⁶	Project status ⁷	Abstracts (number) ⁸	Journal papers (number) ⁸		
				published	in press	in review

Required documents			Options
Application form	Project description	User statistics	User statistics (prev. project)

Results from NordSIM-Vegacenter projects led by academic users must be published in accordance with VR's policy on open access ⁴ . Check to acknowledge acceptance of these terms.			
Date		Signature ⁹	

Notes

- 1) Under Swedish Research Council rules, PhD. students cannot be project leaders.
- 2) Please append separate form on (anonymous) gender and home institution statistics.
- 3) Prior consultation with NordSIM-Vegacenter staff is recommended, particularly for large/long-term projects or those requiring analytical development and/or complex sample preparation.
- 4) Current open access policy requires that publications are made available on a publicly accessible web site, either via journal open access or parallel publishing of final manuscript.
- 5) This includes previous NordSIM and Vegacenter projects from prior to the 2018 merger.
- 6) Project year for which project was accepted.
- 7) Indicate whether your previous project is complete, in progress, or delayed.
- 8) Supply further details on a separate sheet and, if available, copies of reprints.
- 9) Pasted signature is acceptable, if not available, please print, scan and send this page.
