

Recoveries per country

The number of recoveries per country during the time period 1911-2005 south of 25°N in Africa or on the Arabian peninsula, i.e. about the northern end of Sahara. There are additional recoveries in some countries, for example in Egypt and Algeria, but since these are recoveries north of 25°N they are not included in this table.

Country	Number of recoveries
Mali	273
Ghana	180
Senegal	171
South Africa	112
Ivory Coast	82
Nigeria	59
